

# EDMP™

The highly intuitive platform brings together major air carriers, freight forwarders, ground handling agents and other industry associates that provide timely and accurate tracking of cargo movement. It was certified by Cargo iQ as The First in Asia fully compliant CDMP service provider.

## How can EDMP™ help?

### Cargo iQ certified

- The First in Asia fully compliant CDMP service provider for both carriers and forwarder members
- The system exchanges and manages shipment status in full compliance as per Cargo iQ standard

### Real time automated shipment status update

- EDMP™ tracks the cargo movement in real time in accordance to Master Operating Plan (MOP), allowing active monitoring of shipment status against shipment planning and standards
- Deviations are highlighted for immediate and long term mitigation and remedy

### Proactive performance management maximizes profitability

- EDMP™ provides statistics and customized reports to help carriers monitor the service quality of GHAs, and for forwarders to their partner carriers, with an aim to identify problem areas to drive improvement
- Carriers can quickly identify root causes and take timely corrective actions to improve operation efficiency and eventually maximize profitability
